Link here is an earlier video I did to explain how it works and how to install it,

I've attached 2 x types of config file, the (\*.conf) file is for adding Wiregaurd tunnel to a pc or macs or scan QR (\*.png) if you are adding Wiregaurd to a mobile phone

Note you can only install Wiregaurd config on one device (e.g. 1 x PC)request another Wiregaurd Config for 2nd device (e.g. Mobile Phone)

Installation - WireGuard

- Step 1: Install the WireGuard app.
- Step 2: Import the configuration or create a new tunnel. (Conf File sent

- Step 3: Connect to (activate) the WireGuard tunnel.
- Open *App Store* and search for *WireGuard*.
